Extension | Safeguard own social networking profile | Homework |

Lesson

Starter:
Ask questions relating to who has a social networking profile, who Twitter? Who uses Facebook? etc. Why do they use them? What do SNS allow that other services or offline doesn’t? Any experience of using SNS should be encouraged to be shared at this point.

Activity 1:
Ask pupils to work together or individually to highlight the safe and potentially unsafe features and behaviours exhibited on Chloe’s social networking site. Encourage the class to discuss how and why they categorise these aspects of the profile.

Activity 2:
Ask the class the given questions relating to Chloe’s profile to encourage pupils to share their thoughts and ideas previously discussed in pairs. This could be set up as a debate between the class on who thinks SNS are great and who thinks they are not great and why.

Plenary:
Generate at least 5 ways that Chloe can improve her profile to make sure it is safer.

Homework:
Challenge pupils to look at their own profiles online to ensure they are as safe as possible.
